

Bible Verse

“While I am in the world, I am
the light of the world”

John 9:5

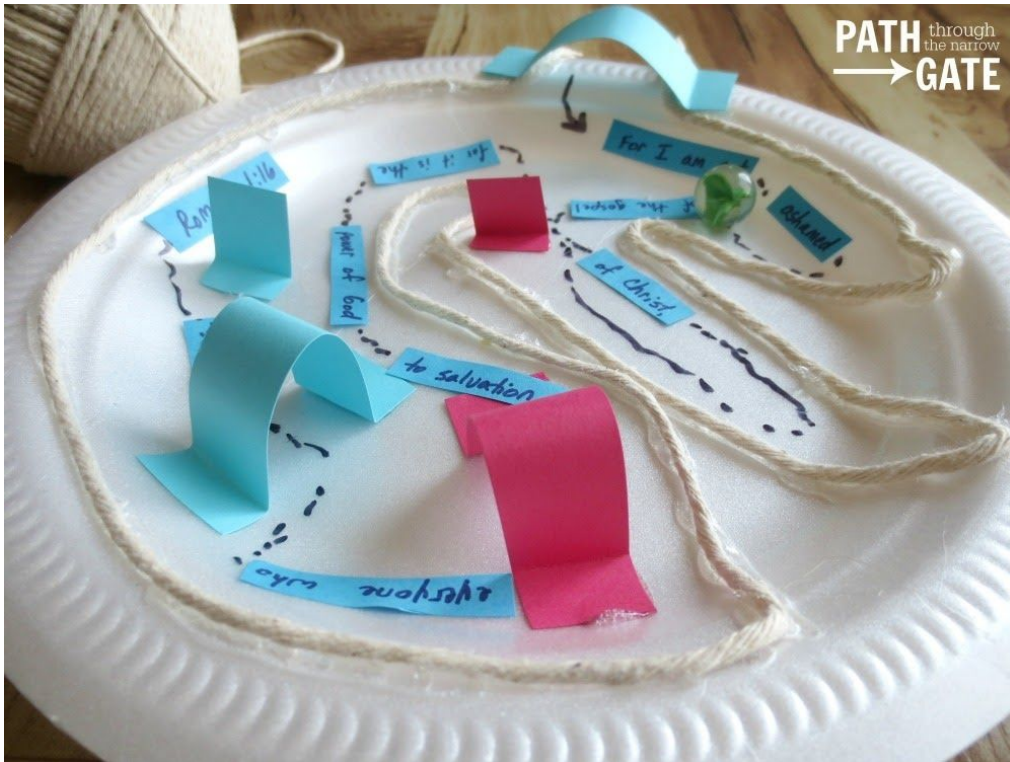

Paper Plate Marble Maze Supplies:

- Foam, Plastic, or Paper plates with rims
- Paper
- Scissors, Tape, Permanent Marker, Glue
- Marble or small bouncy ball
- String, Wooden Craft Sticks, Pipe Cleaners, Twine – Basically any craft supplies that you have on hand to make the courses. You could use twigs and leaves from outside as well. Be Creative!

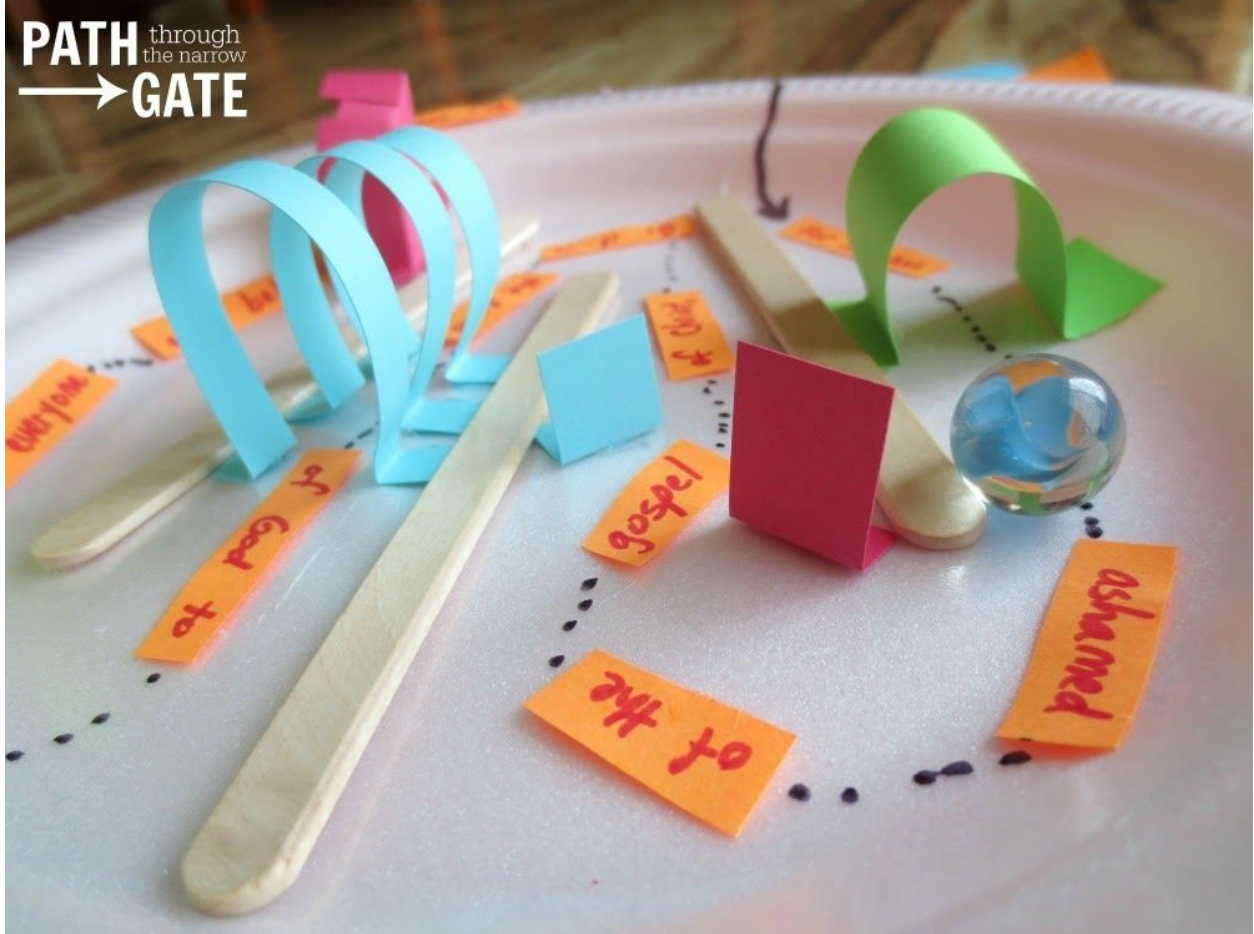

Paper Plate Marble Maze Directions:

Write out the verse in small writing and cut the words or word phrases apart. You could also print the verses out and cut the words or phrases apart.

Map out a maze pattern using the paper words and whatever supplies you have on hand. Make tunnels with strips of paper, road blocks with rectangles of paper, and even little paper “boxes” to catch the marble at the end of the maze.

Use string, wooden craft sticks or even sticks from the yard to create “boundaries”.

Glue or tape the objects to the marble maze. You may want to use a combination of white school glue and tape for the tunnels. (Tape is necessary to hold the tunnels upright and in place while the glue is drying.)

Finally, use a permanent marker to map out the marble “trail” from word to word.

The hard part will be waiting for the glue to dry!

After the glue has dried, you can play with the mazes by gently tipping the plate back and forth to guide the marble through the maze.

Memorize the verse as you roll the marble
