

Spread the Love

Here's some ideas to spread some love to your neighbors walking by.

If you don't have any chalk try mixing water and cornstarch in equal proportions and add a few drops of food color, paint it on the sidewalk with a brush.

Use tape to create a stained glass effect. Paint the glass with Crayola washable paints, washable chalk markers, tempera (poster paint) or acrylic.

DO NOT USE MULTI SURFACE CRAFT PAINT apparently it will ruin your windows.

If the paint is not sticking well add a drop or two of dish soap to the paint.

No paint? No problem make paper decorations and hang them in the window.
