Talk about how Jesus is like a magnet, drawing us close, as you use a magnet to test objects around the house. Figure out what is magnetic and what is non-magnetic.

MAGNET RELAY - Give the children some small magnets of their own with several items that they can try to pick up and carry from one side of the room to the other. You may wish to divide the children into teams and see which team can carry all of their metal objects to the other side of the room first!

Work on a Palm Sunday “wreath” this week to have ready for next Sunday.
