## Cute Resurrection Egg Craft

I found this cute printable to create this book..

You can download it **free here**. It is five pages. The last page (foldable eggs) you will need to print three times on colored card stock. When you cut them out, do not cut where the ovals touch so you can fold them over (see the picture above) All other pages get printed once on regular paper. The printable has an egg you open and inside the egg you glue a part of the story and a symbol from the egg. **Have fun!**
